Two research questions guided the study: 1) Is the use of elements of a structured approach to investigate homicides associated with more solved cases 2) Are certain characteristics of homicide cases associated with a higher likelihood of detection The data set for this study comprised all the non-domestic homicides reported to the Trinidad and Tobago Police Service from January 1st 2008 to December 31st 2014 was analyzed against 21 investigative variables and 16 solvability factors. Of these, only 2 investigative variables and 9 solvability factors were found to be strongly associated with solved cases. The two investigative variables were (a) 1st officer secured crime scene; and (b) investigator present at post-mortem. This study...
