Brand New Book ***** Print on Demand *****.Army Tactics, Techniques, and Procedures (ATTP) 3-06.11 establishes doctrine for combined arms operations in urban terrain for the brigade combat team (BCT) and battalion/squadron commanders and staffs, company/troop commanders, small-unit leaders, and individual Soldiers. The continued trend worldwide of urban growth and the shift of populations from rural to urban areas continues to affect Army operations. The urban environment, consisting of complex terrain, dense populations, and integrated infrastructures, is the predominant operational environment in which Army forces currently operate. Each urban environment is unique and differs because of the combinations presented by the enemy, the urban area itself, the major operation of which it may be part (or the focus), and always changing societal and geopolitical considerations. Enemy forces will take advantage of this complex environment by intermingling with the populace. ATTP 3-06.11 is based on current BCT structure and lessons learned from ongoing UO. ATTP 3-06.11 primarily addresses offensive and defensive operations in an urban environment. Stability operations are briefly discussed in the context of transition considerations. Stability operations are inherently among the people and generally in urban environments. Field manual (FM) 3-07 is the source manual for stability doctrine and addresses BCT considerations for conducting stability UO. FM 3-07.1 is the primary source for BCT and below considerations for interaction and support to host nation (HN) security forces. This material is not repeated in ATTP 3-06.11. This publication applies to the Active Army, the Army National Guard (ARNG)/Army National Guard of the...
