Getting Started: Long Exposure Astrophotography

By Allan Hall

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 344 pages. Dimensions: 9.1in. x 7.5in. x 0.9in. A primer and a fully-formed, practical format for entering the world of long exposure astrophotography, Allan Hall's Getting Started: Long Exposure astrophotography brings the rewarding pursuit of stellar imaging to your bedside table. With academic flare and his signature approachability, Hall utilizes a suite of formats to provide readers with everything they need to begin - and develop. From charts, images, purchasing guides, walkthroughs and detailed descriptions, this Getting Started title is an in-depth resource for today's astrophotographer at any level of their discipline. Leading up to an incredibly useful list of the first twenty-five objects an astrophotographer might image with long exposures, this Getting Started title also offers a range of equipment advice and grounded descriptions of why certain phenomena occur - as well as what they will mean for you and your shoots. Though founded in the clarity and precision of science and photography, astrophotography can nonetheless be one of the most artistic and even sensual crafts, as well as one of the most daunting. A road map is essential when pursuing a rich experience...
